Date of Joining: 19 August, 2013

Educational Qualification: PhD Horticulture

Permanent Address: H.No. 239 Chhoti Barandari Part-II, Jalandhar- 144001

Mobile: 7508999313

Work Profile: Working as **Project Officer** at **CENTRE OF EXCELLENCE FOR POTATO** (an Indo-Dutch project) which specifically aims at demonstrating new technologies for quality seed potato production and its supply to the farmers. I am associated with this Centre since year 2014. Here, the quality production of potato planting material is done by hi-tech techniques of Tissue culture and Aeroponics. Apart from the hi-tech techniques, the seed potato is also multiplied under net house and open fields. The new act for certification and tagging of generation (G0, G1, G2, G3 and G4) seed has been implemented for the farmers. Farmers are also being guided in the training/seminars for quality seed potato production and they are provided with good quality seed from the centre.
